Contents

1-6 Determinants of various aspects of smoking behaviour in the United States
R. K. Green and M. A. Norem

7-12 The decreasing returns on working time: an empirical analysis on panel
G. Ktila, S. Chang and M. Konte

13-18 Measuring satisfaction of the unemployed: a composite indicator and policy
F. Skokel

19-24 Bank insolvency risk and Z-score measures with unbalanced returns
H. Boletini, E. Giannakis-Nakad and E. Ortega

25-30 An empirical test of the purchasing power parity for transition economies: Panel
DURBIN Tests
W. K. Hauck, R. Pan, C. K. Loo and H. W. Tang

31-36 Forecasting comparison between two nonlinear models: fuzzy regression
A. Belgodere and C. Vellutini

37-42 Identifying key elasticities in a CGE model: a Monte Carlo approach
T. Caporale and J. Paxton

43-48 From debt crisis to tequila crisis: inflation stationarity through Mexico’s
C. A. Bansak, M. E. Graham and A. A. Zebedee

49-54 International price dispersions of the Big Mac and economic integration
V. K. Teles and R. Joiozo

55-60 Human capital and innovation: evidence from panel cointegration tests
Y. Fukumoto

61-66 Forecasting bank failures: timeliness versus number of failures
J. Simonian

67-72 Estimating demand elasticities for intra-regional tourist arrivals to
in Taiwan
Y. -S. Liu, C.-W. Su and M.-N. Zhu

73-78 In search of a software Kuznets curve?
J. Simonian and J. Davis

79-84 An empirical analysis of income convergence in the European Union
S. Caporale and D. Gülin

85-90 The effect of motivation on social indirect reciprocity: an experimental analysis
A. Pachon and P. Nunnenkamp

91-96 The revision policy of seasonally adjusted balance sheet data in Italy
A. D'Amato and G. Viotti

97-102 Incorporating uncertainty into the Black-Litterman portfolio selection model
J. Martinek and I. Vrana

103-108 Is there a software Kuznets curve?
J. Simonian and J. Davis

109-114 Estimating demand elasticities for intra-regional tourist arrivals to
in Taiwan
Y. -S. Liu, C.-W. Su and M.-N. Zhu

115-120 Identifying key elasticities in a CGE model: a Monte Carlo approach
T. Caporale and J. Paxton

121-126 From debt crisis to tequila crisis: inflation stationarity through Mexico’s
C. A. Bansak, M. E. Graham and A. A. Zebedee

127-132 International price dispersions of the Big Mac and economic integration
V. K. Teles and R. Joiozo

133-138 Human capital and innovation: evidence from panel cointegration tests
Y. Fukumoto

139-144 Forecasting comparison between two nonlinear models: fuzzy regression
A. Belgodere and C. Vellutini

145-150 Identifying key elasticities in a CGE model: a Monte Carlo approach
T. Caporale and J. Paxton

151-156 From debt crisis to tequila crisis: inflation stationarity through Mexico’s
C. A. Bansak, M. E. Graham and A. A. Zebedee

157-162 International price dispersions of the Big Mac and economic integration
V. K. Teles and R. Joiozo

163-168 Human capital and innovation: evidence from panel cointegration tests
Y. Fukumoto

169-174 Forecasting comparison between two nonlinear models: fuzzy regression
A. Belgodere and C. Vellutini

175-180 Identifying key elasticities in a CGE model: a Monte Carlo approach
T. Caporale and J. Paxton

181-182 From debt crisis to tequila crisis: inflation stationarity through Mexico’s
C. A. Bansak, M. E. Graham and A. A. Zebedee

183-184 International price dispersions of the Big Mac and economic integration
V. K. Teles and R. Joiozo

185-186 Human capital and innovation: evidence from panel cointegration tests
Y. Fukumoto

187-190 Forecasting comparison between two nonlinear models: fuzzy regression
A. Belgodere and C. Vellutini
In a change to the format of the Applied Economics Series of journals, from 2009 Applied Financial Economics Letters will be incorporated into its sister journal Applied Economics Letters.

Aims and scope
Applied Economics Letters is a peer-reviewed companion journal to Applied Economics and Applied Financial Economics. It publishes short reports of new original research and encourages discussion of papers previously published in its two companion journals. Letters are reviewed by the Editor, a member of the Editorial Board or other suitable authority. They are generally applied in nature but may include discussion of method and theoretical formulation.

Instructions to authors
2. Submission. Please go to the manuscript portal to submit your manuscript. The contents of the papers shall be the sole responsibility of the authors and publishers shall not be held liable for the contents of such papers.
- From January 2008, submissions to Applied Economics Letters (incorporating Applied Financial Economics Letters, are subject to a submission fee of €500 ($650/£425) for the first submission. The fee is payable via credit card (Visa or MasterCard) at the time of submission and is not refundable in any circumstances.
- All manuscripts shall be subject to an editorial pre-screening process to assess suitability for the journal. Manuscripts which do not meet our requirements will be returned to the authors.
- Subject to the pre-screening, manuscripts shall be processed in a double anonymous peer review system, using independent expert referees.
- Final responsibility for the selection and acceptance of articles rests with the Editor.
- All referrals to authors should be revised from the text to enable double anonymous peer review - this entirely the responsibility of the author and any mention of authors rights in the text must therefore be removed.
- All manuscripts are subject to the double anonymous peer review process and each manuscript will undergo single blind refereeing conditions.
- Submission of a manuscript to the journal indicates formal acceptance by the Editor of (a) the manuscript and (b) the refereing conditions as agreed.

The manuscript.
1. The manuscript. Letters will not normally exceed 2000 words in length. Letters must be typed with double spacing throughout (on one side of A4 paper only, with a 4cm margin at the left hand margin. The text and references should be numbered for ease before refereing. Authors should ensure that the responsibility of the author is one the typescript is correct to the state of the manuscript, any later changes made prior to publication in its two companion journals. Letters are reviewed by the Editor, a member of the Editorial Board or other suitable authority. They are generally applied in nature but may include discussion of method and theoretical formulation.
